

Measure	Weight	Measure Description	Points earned
#1	12	Quality (Completeness and Accuracy) of Clinical Data	
		>90% score on audit	12
		81% - 90% score on audit	10
		60%- 80% score on audit	6
		<60% score on audit	0
#2	12	Quality (Completeness and Accuracy) of Technical Data	
		>90% score on audit	12
		81% - 90% score on audit	8
		60%- 80% score on audit	6
		<60% score on audit	0
#3	10	Quality (Completeness and Accuracy) of Survey Data	
		>90% score on audit	12
		81% - 90% score on audit	8
		60%- 80% score on audit	6
		<60% score on audit	0
#4	8	Timeliness of Physics Data submission	
		>85% of data submitted within six weeks of treatment completion	8
		>85% of data submitted within eight weeks	6
		>85% of data submitted within twelve weeks	4
		>85% of data submitted after twelve weeks	2
		<85% of data submitted after twelve weeks	0
#5	5	Percentage of lung patients who underwent a form of respiratory motion assessment at the time of simulation	
		>85% underwent motion assessment at time of simulation	6
		50-84%	4
		<50%	0
#6	5	Heart contoured for use in treatment planning, and DVH submitted for every patient	
		>95% patients have heart contoured and DVH submitted	6
		<95%	0

#7	4	Consent for digital imaging	
		>85% of all breast cancer patients consented for digital images	6
		76-85% of all breast cancer patients consented for digital images	4
		60%-75% of all breast cancer patients consented for digital images	2
		<60% of all breast cancer patients consented for digital images	0
#8	12	Meeting Participation – Clinical Champion
