

Michigan Radiation Oncology Quality Consortium

### In this issue:

- MROQC Quality Measures for 2022
- Updates from the Coordinating Center
- MROQC Patient Advocates-Next Steps
- Upcoming Working Group Call Schedule

### Thank you for attending the June 11, 2021 virtual MROQC Collaborative-Wide Meeting

Thank you everyone that attended the June 11, 2021 virtual MROQC Collaborative-Wide Meeting. We had a total of 166 participants on the webinar. Our next MROQC Collaborative-Wide Meeting is scheduled for October 8, 2021.

### MROQC Quality Measures for 2022:

Don't miss the July and August WG calls as all projects (breast, lung, bone mets, and prostate) will be working on setting the quality measures for the upcoming year. Not part of a particular working group? You can sign up at [support@mroqc.org](mailto:support@mroqc.org) to receive the meeting invitations and minutes.

### Updates from the Coordinating Center

#### New! Clinical Project Tip Sheets

We have created tip sheets for each project to help track current eligibility criteria, data collection times, dates of changes, and helpful reminders. As changes occur in each project, the tip sheets will be updated and disseminated to the group. Check out these tip sheets on the [CDA Resources](#) page our website.

#### Prostate Project Updates

Introducing the "new" [P7 CDA Baseline Clinical Data Form!](#) This form will allow sites without a referring MUSIC practice to participate in the prostate project.

#### Breast & Lung Database Reports

We are happy to announce that the following Breast & Lung Database Reports are now available for use:

- Physics Data Checker Problems
- Physics Required Questions

Issues or questions with your reports?

Please submit a ticket to [support@mroqc.org](mailto:support@mroqc.org)

#### The MROQC Member Resources folder is moving to Dropbox

The University of Michigan is in the process of moving from Box file storage, to Dropbox. The MROQC Member Resources Box folder is scheduled to be migrated over to Dropbox in mid-July. All MROQC consortium members will receive an invitation via email to access the "new" DropBox folder. A Dropbox account is not required to view or download these shared files.

Please contact [Danielle Perry](#) if you have any questions regarding Dropbox access.

#### MROQC Patient Advocates-Next Steps:

Do you know of an individual(s) at your site that you feel would fit the needs for this role within MROQC?

If yes, please contact [Melissa Mietzel](#)

#### Upcoming MROQC Project Working Group Call Schedule:

- Breast Working Group Call, July 9<sup>th</sup> at 2:00pm
- Lung Working Group Call, July 16<sup>th</sup> at 11:00am
